

## **Green Christmas**

The streets are filled with Christmas cheer  
At least it's only once a year  
Perfect parcels tied with perfect bows  
And carols ringing in my ear

Bundled up against the cold  
Lines wherever gifts are sold  
Each shop window displays a Christmas scene  
For everybody young and old

Icicles on eavesdrops and tinsel on the tree  
But it's a green Christmas for me

Couples skating on the pond  
Making angels on the lawn  
Five red mittens drying on the rack  
And needles shedding Tannenbaum

Red bows on the railing, snowflakes on the ground  
But it's a green Christmas in this town

Carolers are at my door  
Don't wanna hear them anymore  
Stockings on the mantle  
Snow's here everyday  
But it's a green Christmas anyway

Red nose on the reindeer, tinsel on the tree  
But it's a green Christmas for me
